

## Expanding Children's Ministry

Since our last trip to America and meeting you, our ministry partners, we at The Least Of These have been overwhelmed with the amount of support and prayers you are giving us. It really encourages us to go out there and minister to children even more. We definitely see the growth of the children's ministry in the village of Plesets`ke. We have new kids coming every Sunday Club meeting. Last time we had 33 children and our records show about 40 children that attend the Club.

Looking into the close future we see ourselves doing following things connected with children, teenagers and youth:

1. Holding regular Sunday meetings for children.
2. Doing individual discipleship program.
3. 5 days a week feeding children in the afternoon after school.
4. Art and skill classes like music, drawing, crafts, sports.
5. Creating safe and healthy environment.
6. Church meetings.

So we began to pray and look for a possible property where we can build a big enough building for all of the activities. The property has to meet certain standards:

1. Easily accessible (close enough to the school)
2. Big enough for a building and play grounds
3. With as few of neighbors as possible
4. With possible expansion for future

**We have an opportunity that we thought we will never find. Here it is.**

1. Located on the Central Street, on the busy intersection,
2. Right next to a bus stop,
3. 0.65mi away from the School, or 0.29mi from the center of the village,
4. Has access to it from three sides,
5. Only one neighbor from a fourth side,
6. Wide, big enough for a building - 0.62 acres,
7. And even has a possibility of expansion to utilize it in the future for playgrounds, sports or a park.

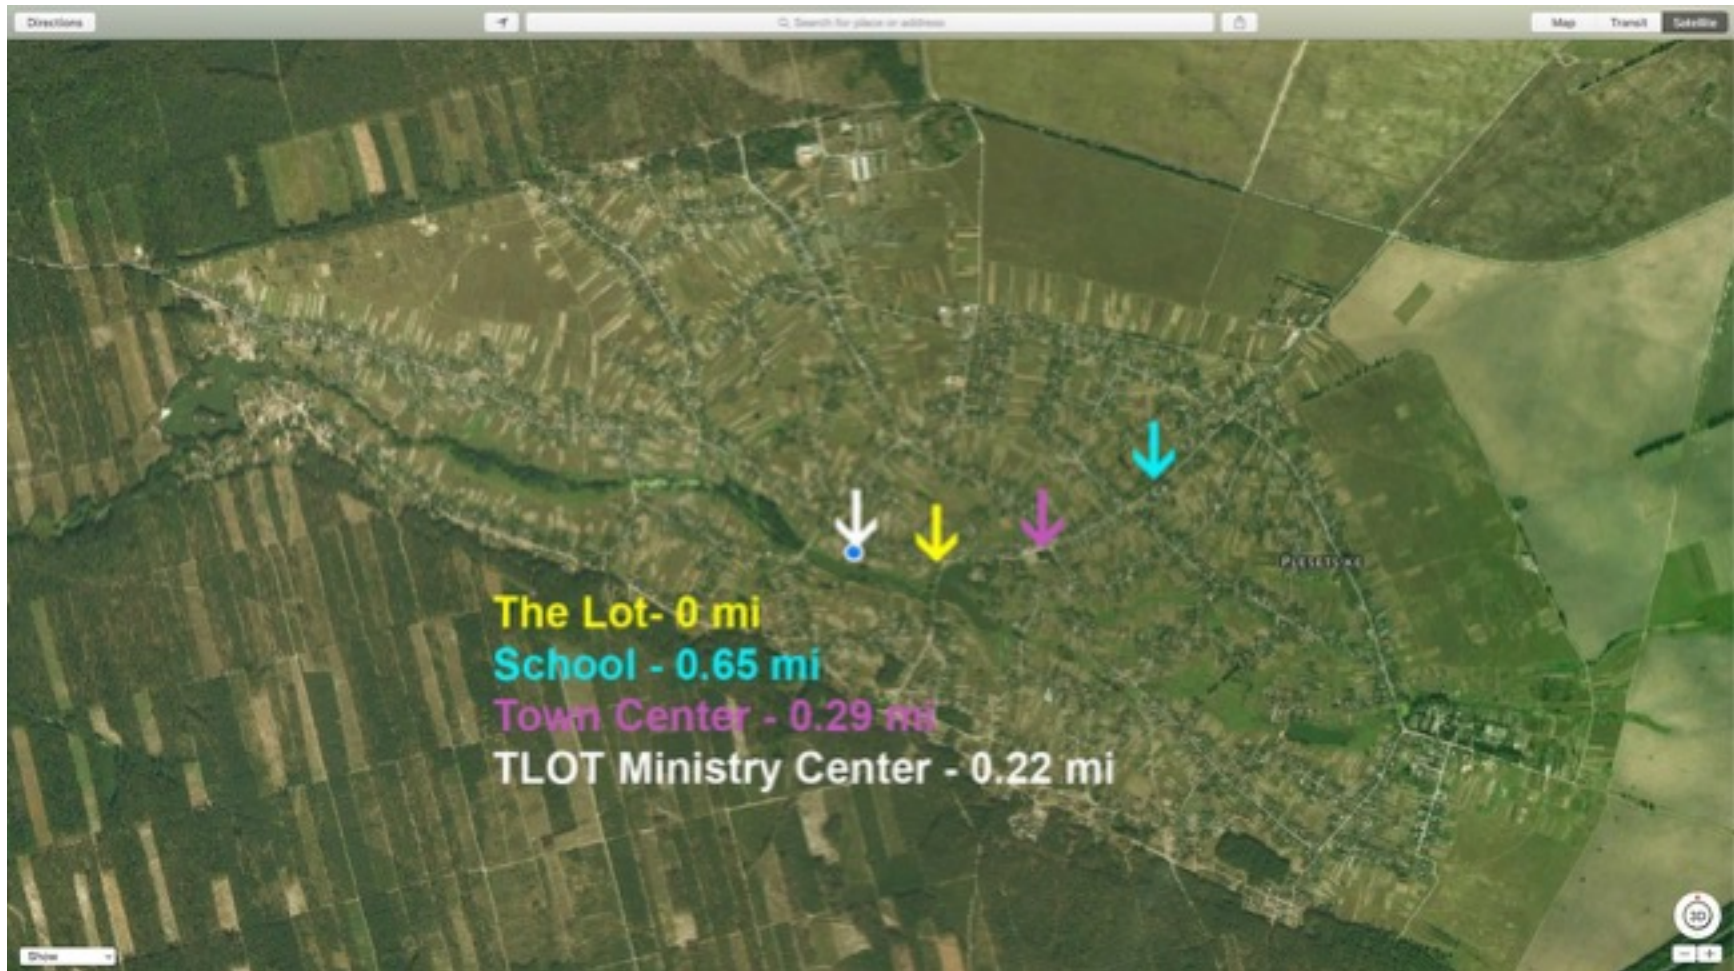

The drawbacks are:

1. It is divided into two lots owned by two different owners. Both are for sale.
2. It is a little low, so no basement allowed and septic system has to be well built.

For both lots of the land the price as of today is \$21,000. For all the paperwork and commissions it will add another \$2,000. But as always we will try to negotiate for a better price.

For you to have a better visual understanding of locations and size of the property, here are some pictures from satellite and from the ground that I have taken.

## General location of key places in the village

## Placement of lots

Red - first lot 132' X 123' (0.37 acres), Yellow - second lot 132' X 75' (0.25 acres), Blue - possible expansion -0.80 acres. There is a dirt road between yellow and the blue lots.

## On the ground pictures.

In the corner you will see a purple dot that indicates the place where the picture was taken.

## Back Corner Look of the Expansion

What a wonderful location and special setting!

So as The Least of These, we are asking that you would stand with us in prayer and support for this property. God willing it will become a shelter and training place for dozens of children and adults that are going to change the environment and lives in the village, turning people from alcoholism and ignorance to the Kingdom of God.

Thank you very much.
