Hello dear friends and partners!

Svitlo (The Light) Club on bicycles

The summer time calls us to go places. The most affordable and most rewarding way to travel with children remains on bicycles. We held a one day trip 30 miles long, and a three day trip 84 miles long. Kids loved it so much they cannot wait until the next trip will come. In one of the trips we had a strong conflict between some children and we had to resolved it. For the first time in their lives the kids could see the example of how to solve conflict in situations the christian way. What we see these trips do is building children's character, transferring christian values and showing faith in action.

Summer Camp

This year we held another summer camp together with the ministry called Baobab Camp. We had 25 children from our Sunday Club that visited this camp. A wonderful time of praise and worship in the evenings, Bible lessons in the morning, games and other activities through the day made a wonderful time for children. Kids have learned Biblical principals, some made dedications, and some admitted that their faith in God has grown.

Learning Best Practices

As we minister to the children in our Svitlo (The Light) Club we understand that despite our long experience in the field we are not perfect. There are still many things to learn. With this in mind we are always open to visit other ministries. This summer we were contacted by Discovery Club in Kiev who ministers to teenagers. Great people! Shared a lot of experience with each other.

Ukraine Camp

Also I was invited to visit Löhcamp, a camp in Germany to see and learn from their experiences over that last 8 years. They minister to children in their community through 6 day intense camps. I returned home with great ideas and concepts I want to put into practice next summer in our English Speaking Camp.

Germany Camp

God bless,
Vitalik
